

PRESS RELEASE

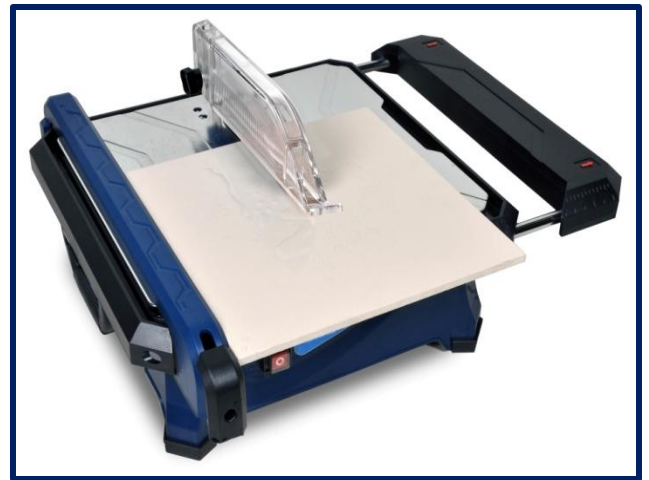

October 2012

Vitrex Power Pro 650 Tile Cutter

New from QEP, the world's leading supplier of tiling & flooring installation equipment – Vitrex Power Pro 650 Electric Tile Cutter.

The new Vitrex 650W Wet Saw is a small, but remarkably powerful tile cutter. Ideally suited for the 'small-job' contractor or serious DIY enthusiast, it is capable of cutting any tile substrate from ceramic to stone to porcelain.

Whilst offering many of the same features found in larger electric tile cutters, the Vitrex 650W Wet Saw is perfect for those small work spaces like bathrooms and kitchens.

- 180mm diamond blade with continuous rim for extra clean cut
- Double extension table for larger format tiles
- Cuts tiles up to 30mm thick
- 22.5° & 45° mitre cuts for perfect corners
- Durable steel table & frame have rubber foot pads for stability
- Integral measuring guide and quick release rip guide for perfect straight cuts
- Quick release splash guard for plunge cuts

The Vitrex 650W Wet Saw is completely self-contained & requires no pumps or hoses. The diamond blade is cooled as it passes through the internal water reservoir during operation & the advanced 'no-mess' water containment system reduces reservoir fill-ups & keeps the work area drier by reducing splash.

Vitrex – sign of a professional job
