

Renee Tester Recognized by NWFA

February 1, 2022 For Immediate Release: “I am extremely proud to announce that Renee Tester, Vice President of Marketing, eCommerce, and Digital has been recognized by the National Wood Flooring Association (NWFA) in their February 1, 2022 issue of Hardwood Floors Magazine’s 2022 Inspiring Women in the Industry! Renee has been a leading force in the industry for over a decade, and her passion is an inspiration to many colleagues at QEP.” – Michael Duchaine

March is Women’s History Month in the United States, and March 8th is International Women’s Day, which celebrates the social, economic, cultural, and political achievements of women. Many women work on the manufacturing line, install floors, manage company finances, sell products, market, or serve as the CEO and in recognition of this, NWFA has published their list celebrating just a few of the amazing women in the hardwood flooring industry.

“I love being part of such an amazing ‘family.’ While we all may be competitors in some capacity, we have such a strong network of professionals that genuinely care about each other.”
— Renee Tester

Hardwood Floors Magazine is produced by the National Wood Flooring Association (NWFA), which is the leading association for all hardwood information. Attached you will find the link to the full article that details Renee’s and the other women’s stories, their inspirations, and what they enjoy about working in and improving this industry.

Please join me in congratulating Renee on this accomplishment
